

## Schoolcraft County Road Commission

### 2025/2026 Private Road Snowplowing Contract Application

Schoolcraft County Road Commission offers plowing to assist residents in gaining access to their homes and cabins on private roads. The private road must meet all requirements set by the road commission including but not limited to a 20-foot width and a 14-foot height clearance. This means the road clearance must be maintained even when snow weighs down limbs of surrounding trees. Failure to meet these requirements could result in damage to equipment.

All snow plowing services shall be billed at actual cost plus an 8.5% overhead charge. Payment is due within sixty (60) days of the invoice date ("Net 60"). Failure to remit payment in full within the stated period will result in termination of future private road plowing services.

#### TERMS AND CONDITIONS:

- Private roads shall only be done after the completion of all required work on State, County, and Local roads.
- The Customer/Undersigned accepts full responsibility for any damage to the County plowing equipment arising from contact with obstructions left in areas from which snow is to be removed, and shall hold this Commission harmless from any damages to, or on, the premises, and any other liability that may occur while performing this service and hereby releases, waives, discharges, and covenants not to sue the Schoolcraft County Road Commission, its officers employees, representatives and agents, of and from any claim in law or equity for injury or damages of any type whatsoever which may occur arising out of the snowplowing of the Customer/Undersigned's private road.
